

SERVICE THROUGH INNOVATION

ICE SCRUB 75 D

The ICE Scrub 75 D is a pedestrian scrubber dryer suitable for maintenance and deep cleaning of large areas where the utmost discretion is required during cleaning operations.

Thanks to its low noise levels it is ideal for environments such as nursing homes and hospitals, or in retail outlets for day time cleaning.

The traction is driven by two small levers near the handle, so the speed can be controlled at all times.

Specification	ICE Scrub 75 D
Fresh water capacity	85 Ltr
Dirty water capacity	95 Ltr
Suction width	106.5 cm
Working width	76 cm
Noise level	59.2 dBA
Power	24 V
Weight	150 Kg
Productivity	3,800 m ² /h
Dimensions (L x W x H)	149 x 106 x 80 cm

The ICE Scrub 75 uses important technical solutions that improve performance levels while keeping management costs very low.

The machines key features are:

Tank Capacity

Quiet Operation
