

ICE Urban 2000

The ICE Urban 2000 is a fully enclosed battery road sweeper, with rear dual-wheel drive, strong climbing ability and a maximum travel speed of 25km/h.

The ICE Urban 2000 will improve productivity and efficiencies thanks to the built in on-board pressure washer. The operator comfort and experience was of importance in designing the ICE Urban 2000. With an automatic hopper emptying system the operative is no longer required to manually empty the 400 litre bin.

The maximum working gradient for the ICE Urban 2000 is up to 35% meaning this machine is able to work in a wide variety of environments such as car parks, stadiums and city centres.

Specification	Detail
Hopper capacity	400 ltr
Sweeping width	200 cm
Max gradient	35%
Max speed	25 km/hr
Water tank	400 ltr
Power	4,800 w
Max efficiency	16,000 m ² /h
