

ICE Pulse 460

This innovative device is engineered with resilient, shock resistant, and corrosion resistant materials, ensuring long lasting durability and reliability.

Experience unparalleled convenience with the Pulse 460 as it eliminates vibrations completely, providing a comfortable and effortless cleaning experience. Its unique rectangular shape enables access to hard to reach areas that other machines cannot reach, ensuring a thorough and comprehensive clean.

The Pulse 460 incorporates the exclusive Micropulse Technology, a cutting edge movement system that generates powerful turbulence and a suction effect. This advanced technology effortlessly and swiftly removes dirt from any type of floor, all while operating silently and efficiently.

Upgrade your cleaning routine with the Pulse 460 and witness its exceptional performance. With its innovative design, durable construction, and Micropulse Technology, it sets a new standard in floor cleaning.

Specification	ICE Pulse 460
Motor Power	0.55 kw
Voltage	230/75 V/Hz
Rotation	2,760 rpm
Motor Height	28 cm
Work Surface	46 x 30 cm
Weight	45 Kg
Noise Level	50 Dd
Tank Capacity	8 l
Cable Length	15 m
Handle height	120 cm
Folded Handle Height	40 cm
