

SERVICE THROUGH INNOVATION

ICE Orbitiser

The ICE Orbitiser is a Professional floor cleaner that can reach into any corner, in any environment, on any floor type.

Perfect machine for areas which can not be reached easily thanks to its slim design and base of only 11cm.

Powered by a 36V lithium battery allows you to change the environment without depending on a power outlet.

It cleans and treats floors with its orbital movement that ensures extraordinary results with very little water, and a uniform effect on the entire surface, right down to corners and edges.

It is perfect for public transport, such as buses and trains, where it reaches easily under seats, as well as small areas such as landings, stairs and waiting rooms, or very cluttered rooms such as rest room and kitchens.

FEATURES OF THIS MACHINE

YOU CAN REPORT THE INTERVENTIONS WITH FFM

IT CAN GO ANYWHERE THANKS TO THE LITHIUM BATTERY

AN EXTRAORDINARY REDUCTION IN CONSUMPTION

LONG RANGE BACKPACK ALLOWS TO HAVE ADDITIONAL 2 LITRE TANK

Specification	ICE Orbitiser
Productivity theoretical (up to sqm/h)	500
Working width (cm)	34
Brush motor (n/m)	(1) 300
Oscillations (n/m)	3800
Pressure on the orbital head (Kg)	7
Solution tank (l)	1
Power supply (V/Hz)	Li-Ion Battery (36)
Battery run time (up to h)	2
Dimensions (L x W x H)	33 x 129 x 32
Gross vehicle weight	12 Kg
