

ICE MULTIWASH

The ICE Multiwash is highly effective on 'difficult' floors, including non-slip safety floors, escalators/travelators, low pile carpets and entrance matting.

It is a multi-purpose floor cleaning machine that washes, mops, scrubs and dries hard and soft floors.

It is a quiet, high-speed machine with a choice of brushes for maintenance or intensive cleaning. It has accessible and removable tanks for fast filling and emptying, and leaves floors ready to walk on in minutes.
