

ICE Combination R 140 DARE

he ICE Combination R 140 DARE brings together the strength of a real sweeper with the power of a big scrubber dryer. With a single machine, you can do the work of two, halving the time and costs of each cleaning operation, labour and management.

It is designed for large environments where high performance and productivity are crucial, such as large factories, logistics centres, warehouses, parking lots, train stations, airports, shopping malls and exhibition centres.

Equipped with on-board water recycling, the machine saves up to 70% water and increases productivity due to reduced filling of the tank.

Specification	Detail
Working width	100 cm
Squeegee width	135 cm
Run time	6 (WET) 7 (Li-Ion) hours
Brush pressure	250 kg
Productivity	17,000 m ² /hr
Solution tank capacity	300 litres
Recovery tank capacity	350 litres
Weight	2,250 kg
Dimensions (L x H x W)	296.5 x 152.5 x 155.5 cm
