

PHANTAS EXTRA

Phantas Extra was developed to tackle cleaning challenges in complex commercial spaces such as retail stores, hotels, and offices.

It was designed to deliver **human-like intelligence and superior cleaning performance**, addressing issues like debris detection, stubborn stains, and under-shelf cleaning.

Featuring **dual roller brushes, adaptive cleaning algorithms, and full self-cleaning functions**, Phantas Extra ensures deep, efficient cleaning with minimal maintenance. With the **PhanShop feature**, it even turns cleaning into a new revenue stream by displaying digital ads — redefining what a cleaning robot can do.

Specification	Detail
Size (L x W x H)	54 x 44 x 61.7 cm
Cleaning Width	Scrubbing/Mopping: 33cm Sweeping/Vacuuming: 41cm
Max. Speed	0.8 m/s
Max. Cleaning Efficiency	Scrubbing/Mopping: 950m ² /h Sweeping/Vacuuming: 1180m ² /h
Min. Pass Width	60 cm
Min. U-turn width	75 cm
Gradeability	8°
Clean Water Tank	11.5 L
Waste Water Tank	10.5 L
Runtime	Vacuuming: 4 h Scrubbing: 4.5 h Mopping: 10 h Sweeping: 14 h
Battery Capability	40 Ah
Charging Time	2 h
