

# PHANTAS VAC

The Phantas Vac is a multi-task robotic cleaning machine, bringing sweeping, vacuuming and dry mopping into one compact unit and one investment.

Specialised for superior dry-cleaning performance in professional environments, this machine is fully optimised for offices, hotels, and residential sites, covering hard floors and carpets in areas ranging from 200 to 5000m<sup>2</sup>

This model features innovative smart carpet care. It's special brush design protects carpets while maximising efficient dust and debris removal. Tight spaces are no problem for Phantas Vac. It passes through widths as narrow as 60cm, and heights as low as 65cm.

Phantas Vac is easy to setup, (in just 10 seconds), and features the effortless removal of cleaning parts, making it a breeze to install into daily operations. Its auto charging with docking station brings further levels of ease and reliability.

Specification	Detail
Dimensions	54 x 44 x 61.7 cm
Sweeping/Vacuumping Cleaning Width	41 cm
Dust Mopping Cleaning Width	33 cm
Theoretical Max Efficiency	Dust Mopping: 950 m <sup>2</sup> /h Sweeping/Vacuumping: 1,180 m <sup>2</sup> /h
Run Time	Vacuumping: 3 h, Dust Mopping: 7.5 h, Sweeping: 10.5 h
Charge Time	3.5 h
Dust Bag Capacity	6 L
Min Clearance Height	65 cm
Min Pass Width	60 cm
Min U-Turn Width	75 cm
Gradeability	8°
Battery Capacity	30 Ah
